

BRIDGESCALE EQUITY-ONLY ADDENDUM

STATUS — SAMPLE ONLY. v0 DRAFT.

Counsel review status: NOT YET REVIEWED. Equity-only engagements have heightened tax, securities, and worker-classification implications; counsel review is mandatory before use.

Reference structure informed by industry-standard advisor-engagement addenda; all language is BridgeScale's own.

ATTACHMENT TO SCOPE OF WORK

This **Equity-Only Addendum** ("Addendum") is attached to and forms part of the **Scope of Work** ("SOW") number [SOW-#####], which is itself an addendum to the **Master Service Agreement** ("MSA") number [MSA-#####] between **BridgeScale**, [Company], and [Operator].

By signing this Addendum, the Company and the Operator agree that the compensation mode for the Engagement under SOW [SOW-#####] is **Equity Only**, governed entirely by this Addendum and the Equity Grant Document referenced below.

Addendum Effective Date: [DATE]

1. NO CASH COMPONENT

1.1 The Operator does **not** receive cash compensation under SOW [SOW-#####]. The Operator's only consideration under the SOW is the equity grant set out in Section 2.

1.2 Notwithstanding Section 1.1: (a) the Operator's BridgeScale activation fee (USD 50, as applicable per the Operator's onboarding) remains payable; (b) the Company's BridgeScale unlock fee (₹8,500 INR per match shortlist, as applicable per the Company's account) remains payable; (c) any expenses pre-approved by the Company under SOW §12 (Special Terms) are reimbursed in cash through BridgeScale.

1.3 No 10% Platform Fee under MSA §3.2 applies, because no cash flows between the Company and the Operator under this SOW.

1.4 BridgeScale may charge a separate equity-engagement administration fee, disclosed at SOW signing if applicable.

2. EQUITY COMPONENT

2.1 The Company grants the Operator equity in the Company on the terms set out in **the Equity Grant Document** referenced in Section 3 below ("Equity Grant").

2.2 Default Equity Instrument at Launch: the Founder/Advisor Standard Template ("FAST") published by the Founder Institute (<https://fi.co/fast>). The default tier and equity quantum follow the FAST guidance for advisor levels (Standard / Strategic / Expert) at the agreed Engagement Stage (Idea / Startup / Growth).

2.3 Indicative Grant Terms (final terms in the Equity Grant Document):

Field	Value
FAST level	☐ Standard ☐ Strategic ☐ Expert
Engagement stage	☐ Idea ☐ Startup ☐ Growth
Equity quantum (FAST default for level + stage)	[____] shares OR ____% on a fully-diluted basis
Vesting schedule	[2-year monthly, no cliff – FAST advisor default] OR [4-year monthly with 1-year cliff for
Acceleration on change of control	☐ Single-trigger ☐ Double-trigger ☐ None
Vesting commences	[SOW Effective Date]
Strike price (if applicable)	[____]

2.4 Equity vests according to the schedule in Section 2.3, **conditional on the Operator continuing to perform under the SOW**. Termination of the SOW affects vesting per Section 4 below.

3. EQUITY GRANT DOCUMENT

3.1 The Company will issue, and the Operator will execute, a **separate Equity Grant Document** (typically a FAST advisor agreement and any company-specific share/option grant) within **[14 calendar days]** of this Addendum's Effective Date.

3.2 The Equity Grant Document is a separate legal instrument between the Company and the Operator. BridgeScale is not a party to the Equity Grant Document and is not responsible for its issuance, registration, or compliance.

3.3 The Operator acknowledges that: (a) equity grants may have tax implications in the Operator's country of residence (including potential income recognition at grant or vesting); (b) the Operator is responsible for filing any required tax elections (such as a US Section 83(b) election) within applicable deadlines; (c) BridgeScale has not provided tax advice in connection with this Addendum; (d) for Equity-Only engagements specifically, the Operator should seek independent tax advice given the absence of cash to offset any tax liability at vesting.

3.4 The Company will provide the Operator with the necessary documentation (cap table line, grant certificate, FAST agreement) within **[30 calendar days]** of the Equity Grant Document's effective date.

4. EFFECT OF SOW TERMINATION ON EQUITY

4.1 If the SOW is terminated by either Party: (a) **Vested equity** as of the termination date remains the property of the Operator; (b) **Unvested equity** is forfeited as of the termination date, except as Section 4.2 may apply.

4.2 If the Company terminates the SOW for convenience (i.e., not for cause under SOW §11 / MSA §8.3), the Operator's equity vesting accelerates by **[3 months / 6 months / not at all]**, as specified in the Equity Grant Document.

4.3 If the Operator terminates the SOW for the Company's material breach, the same acceleration in Section 4.2 applies.

5. WORKER CLASSIFICATION

5.1 Equity-Only engagements operate as **Advisory** in nature: strategic input, periodic guidance, no day-to-day supervision by the Company.

5.2 Where an engagement initially structured as Equity-Only evolves into operational, day-to-day work, the Parties will convert the engagement to a Cash + Equity or Cash Only structure under a new SOW *before* the operational work begins. Continuing operational work under an Equity-Only structure may create classification risk in jurisdictions including the EU and UK.

5.3 BridgeScale reserves the right to require conversion to a paid SOW if the platform observes that the engagement has become operational in nature.

6. TAX, SECURITIES, AND DISCLOSURES

6.1 The Company represents that it has the authority to issue the equity granted under this Addendum.

6.2 The Operator represents that the Operator is, or qualifies as, an "accredited investor" or equivalent under the securities laws of the Operator's country of residence, OR that an exemption applies that permits the equity grant.

6.3 The Equity Grant is made in private placement, not as part of a registered public offering, and is subject to applicable transfer restrictions.

6.4 BridgeScale makes no representation about the value or future value of the equity granted.

7. CONFIRMATION

The Company and the Operator confirm that this Addendum, together with the SOW and the MSA and the Equity Grant Document, constitutes the complete commercial structure for the Engagement.

DRAFTER NOTES — REMOVE BEFORE LEGAL REVIEW

- **§1.4 Equity-engagement administration fee** — placeholder. BridgeScale may want to charge a small admin fee on Equity-Only engagements (the platform still does work — matching, contracting, monitoring) without a 10% engagement fee to fall back on. Founder + Finance to confirm.
- **§2.2 FAST default** — see notes on Hybrid Addendum §2.2.
- **§2.3 Vesting schedule** — FAST advisor default is 2-year monthly with no cliff. For Leadership Retainer engagements that elect Equity-Only, a 4-year monthly with 1-year cliff is more conventional. Counsel to advise.
- **§3.3(d) Tax warning specific to Equity-Only** — added because Equity-Only Operators have no cash from the engagement to offset tax liability at vesting; this is a real risk that warrants explicit warning. Counsel to refine language.
- **§5 Worker classification — explicit Advisory positioning** — Equity-Only engagements should be limited to truly advisory work (strategic input, no day-to-day operational ownership). Counsel to confirm: this is what BridgeScale intends to support at launch; operational work should always have at least a cash component.
- **§5.3 Conversion-on-evolution clause** — BridgeScale's right to require conversion. Counsel: confirm enforceability.
- **Equity-Only ↔ Sales Advisor public bucket** — note that the Equity-Only mode is most commonly used by the "Sales Advisors" public role bucket (per A4 / I8). Per-template defaults can be added once the public buckets are wireframed.
- **Connection to non-circumvention** — the Equity Grant Document is bilateral between Company and Operator. Counsel: confirm this does not violate MSA §6.2 (non-circumvention) — the equity is the consideration for advisory work performed *through* BridgeScale.
- **Securities exemption per jurisdiction** — Counsel to confirm the exemption that supports the equity grant in each Tier-1 corridor.

End of Equity-Only Addendum placeholder v0 DRAFT.
