

BRIDGESCALE PRE-SOW COMMERCIAL SUMMARY

STATUS — SAMPLE ONLY. v0 DRAFT.

Counsel review status: NOT YET REVIEWED.

■ NON-BINDING. THIS IS NOT A CONTRACT.

This Summary is a **good-faith commercial alignment check** between a Company and an Operator who have completed a 30-minute introductory call through BridgeScale and indicated mutual engagement intent. It is **not a binding offer or acceptance**. No party is committed to anything in this Summary. The first binding documents are the **Master Service Agreement (MSA)** and the **Scope of Work (SOW)**, which are produced *after* both Parties confirm this Summary.

Where this fits in the BridgeScale flow

`` 30-min call (free) → Both Parties indicate engagement intent ↓ ► Pre-SOW Commercial Summary issued ← (you are here) ↓ Both Parties confirm Summary or request edits ↓ MSA generated, signed by all three Parties ↓ SOW drafted from confirmed Summary + service template ↓ Engagement begins on SOW signing ``

The purpose of this Summary is to make sure the Company and the Operator agree on the *commercial shape* of the engagement before either Party invests time in legal review and full SOW drafting.

Summary

Issued under [BridgeScale match # _____] **Date issued** [DATE] **Valid for** 14 calendar days from date issued. After that, a fresh Summary may be issued or the engagement may proceed directly to MSA + SOW drafting.

Cancellation rule that will apply

- **Consultation:** governed by BridgeScale Cancellation Policy. (See linked policy on the platform.)
- **Sprint:** runs to completion; either Party may terminate for material breach with 7 days' written notice and opportunity to cure.
- **Retainer (both flavours):** 30 days' written notice from either Party.

What happens next

If both Parties confirm this Summary:

- BridgeScale generates the **Master Service Agreement** for this Company–Operator pair (or retrieves the existing MSA if one is already on file).
- All three Parties sign the MSA.
- BridgeScale drafts the **Scope of Work** from this Summary plus the relevant service template, and shares it with both Parties for review.
- The Company and Operator sign the SOW.
- The engagement begins; the invoice schedule starts.

If either Party requests edits: The Summary is revised and re-issued; both Parties re-confirm. No commitment is created until the MSA is signed.

If the Summary expires unconfirmed: Either Party may walk away. No commitment, no fee, no liability.

Confirmation

By confirming below, each Party signals that the indicative commercial shape above is acceptable as the basis for drafting the MSA and SOW. **Confirmation does not create a binding contract.** The MSA and SOW remain the first binding documents.

	Confirm	Request edits	Withdraw
Company	☐	☐	☐
Operator	☐	☐	☐

Confirmed by	Name	Title	Date

Reminder: this Summary is not a contract. It is a good-faith alignment check. Either Party may walk away at any point before the MSA is signed without liability. The MSA and the SOW are the binding documents.

DRAFTER NOTES — REMOVE BEFORE LEGAL REVIEW

- **Non-binding framing** — repeated in the header banner *and* the closing reminder. Counsel: confirm this language holds in target jurisdictions (especially EU/UK where pre-contractual reliance can have legal weight).
- **14-day validity window** — placeholder. Counsel may want a different period or want validity tied to a specific event (e.g., MSA signing, withdrawal notice).
- **"Either Party may walk away at any point before the MSA is signed without liability"** — counsel: confirm this is enforceable, particularly where one Party has incurred costs in reliance on the Summary (e.g., turning down other engagements). Consider adding language that limits *recoverable* damages to direct out-of-pocket costs only, with a low cap.
- **Confirmation mechanism** — currently checkboxes; engineering will implement as platform UI buttons (Confirm / Request Edits / Withdraw). Counsel: confirm the platform-level confirmation captured electronically constitutes adequate evidence of the alignment.
- **Order in flow** — this Summary sits *before* MSA generation. Counsel: confirm there is no jurisdiction in which the MSA must precede *any* commercial discussion. (We do not believe so, but confirm.)
- **Pricing placeholders** — every USD amount is [USD ____] until founder + finance lock template-level price bands. Until then, the Operator and Company agree the indicative amount during the 30-min call and platform staff record it on the Summary draft.
- **EOR field** — note that the Summary surfaces EOR cost *before* MSA signing, so the Company sees the full charged-through figure early. Counsel: confirm pass-through framing is consistent with MSA §3.5.
- **Re-issue language** — if the Summary is revised and re-issued, the previous version is automatically superseded; engineering will version-track.
- **Withdraw without prejudice** — counsel: confirm withdrawal language does not inadvertently waive any rights under the MSA (which is not yet signed) or under generally available causes of action.
- **Connection to BridgeScale's Cancellation Policy** — the Summary mentions Cancellation Policy for Consultations only, because Consultations are pre-paid at booking and don't usually flow through this Summary. Counsel: confirm the cross-reference is needed at all here.
