

BRIDGESCALE SCOPE OF WORK

STATUS — SAMPLE ONLY. v0 DRAFT.

This is a placeholder for a Scope of Work template that will be finalised by cross-border employment counsel before any party is asked to sign it.

No claim or term in this document is binding in its current form.

Counsel review status: NOT YET REVIEWED.

Reference structure informed by industry-standard fractional-talent SOW templates; all language is BridgeScale's own.

ADDENDUM TO MASTER SERVICE AGREEMENT

This **Scope of Work** ("SOW") is an addendum to the **BridgeScale Master Service Agreement** ("MSA") dated **[MSA Effective Date]** between:

- **BridgeScale** [Legal Entity Name] ("BridgeScale")
- **[Company Legal Name]** ("Company")
- **[Operator Legal Name]** ("Operator")

This SOW incorporates the MSA by reference and is governed by its terms. In the event of conflict between this SOW and the MSA, the MSA prevails on structural matters (payments mechanics, IP, conversion, non-circumvention, confidentiality) and this SOW prevails on engagement-specific matters (scope, deliverables, fees, term, cancellation).

MSA Reference ID: [MSA-####] **SOW Number:** [SOW-####] **SOW Effective Date:** [DATE]

1. ENGAGEMENT TITLE

[e.g. "Pipeline Sprint — US Mid-Market SaaS"]

2. SERVICE LANE & TEMPLATE

Field	Value
Service Lane	■ Fractional Leadership ■ Fractional BD / Partnerships ■ Fractional Execution / Operations
Service Template	[e.g. PIPELINE_SPRINT, ICP_REFINEMENT, GTM_STRATEGY, FOUNDER_LED_SALES_TRANSITION, REVENUE_
Operator Role(s)	[e.g. AE + SDR; or VP Sales]

3. ENGAGEMENT TYPE

Select one:

- ■ **Consultation** — single 60–90 minute session
- ■ **Sprint** — fixed-fee, time-boxed engagement (30–60 days)
- ■ **Retainer**
- ■ Sub-flavour: **Leadership Retainer** (senior leader embedded in leadership rhythm; 60-day minimum; 20+ hrs/week)
- ■ Sub-flavour: **Operator Retainer** (senior operator embedded in operator rhythm; 60-day minimum; 15–20 hrs/week)

4. SCOPE OF SERVICES

The Operator will provide the following services to the Company:

[3–4 paragraph plain-English description of the scope. Drafted from the diagnosis, the 30-min call notes, and the relevant service template by BridgeScale and reviewed by both Parties before signing.]

[Example for a Pipeline Sprint:]

The Operator will deliver a structured 8-week outbound sales campaign targeting Ideal Customer Profile ("ICP") accounts in the United States mid-market SaaS segment. The engagement covers sequence design, list build, daily outreach execution, qualification of inbound responses, and handoff of qualified meetings to the Company's internal Account Executive.

Activities are executed through the BridgeScale platform's engagement workspace. Weekly progress is reported in writing and reviewed in a bi-weekly call between the Operator and the Company's primary contact.

This SOW does not include closing of opportunities beyond the Sales-Qualified-Lead ("SQL") handoff, except where the Special Terms in §12 expressly extend scope.

5. DELIVERABLES (with timeline)

Phase	Window	Deliverable
Phase 1	Week 1–2	ICP definition; account list (target 200 accounts); outreach sequence design; CRM hygiene
Phase 2	Week 3–6	Weekly outbound execution; daily activity reports; weekly pipeline review; qualification of inbound responses
Phase 3	Week 7–8	Final pipeline report; recommendations for ongoing motion; transition documentation

[Adapt the table content per service template. Each row shows a phase, the time window, and what is produced in that phase.]

6. SUCCESS METRICS

The Engagement is measured against the following metrics, agreed at SOW signing:

Metric	Target	Measured how
Qualified meetings booked	30+ by week 8	Recorded in Company CRM, reviewed weekly
Sales-Qualified Leads	8+ (\$25k+ ACV; decision-maker engaged)	Recorded in Company CRM with criteria fields
Pipeline value created	\$750k+ in opportunity stage by week 8	Recorded in Company CRM

[Adapt per service template. The Pre-SOW Commercial Summary should already have agreed indicative metrics; this section confirms them with measurement criteria.]

Metrics are tracked in the Company's CRM (or a shared engagement workspace if the Company does not have a CRM). Discrepancies are reconciled at the bi-weekly review call.

7. TERM

Field	Value
Start Date	[DATE]
End Date	[DATE]
Minimum Term	[30 days for Sprint / 60 days for Retainer / not applicable for Consultation]
Renewal	[☐ Auto-renew with 30-day notice / ☐ Renews only by mutual written agreement / ☐ Not applicable]

8. FEES & PAYMENT

Line Item	Amount	Notes
Operator Fee	[USD ____ / month] OR [USD ____ fixed]	*[Placeholder – pending founder-confirmed price band p
Hours Cap	[____ hrs/week]	Standard sprint: 15-20 hrs/week. Standard retainer: 15-20 hrs/week (Operator) on
Overage Rate	[USD ____ / hour]	Hours beyond the cap require pre-approval by the Company's primary contact. C
Platform Fee	10% of Operator Fee	Paid by Company on top of Operator Fee. Does not reduce Operator's payout
EOR Fee (if applicable)	[USD ____ / month]	Charged through to Company at cost. Specify partner: ☐ Deel ☐ Re
Total Charged to Company per Month	[USD ____]	= Operator Fee + Platform Fee + EOR Fee + applicable taxes

Payment Schedule

Select one:

- ☒ **Sprint, fixed fee:** [50% on SOW signing / 50% on Week 8 completion] OR [100% on SOW signing for sprints under USD 5,000]
- ☒ **Retainer, monthly in advance:** Invoice issued 5 business days before each service month begins; due on the first day of the service month

- **■ Consultation:** 100% on booking confirmation
- **■ Custom schedule:** [describe in §12]

Payout to Operator

Field	Value
---	---
Payout Currency	[USD / EUR / GBP / INR / etc.]
Payout Method	■ ACH (US) ■ Wise (cross-border) ■ Razorpay (INR direct) ■ EOR partner (employment-managed)
Payout Cadence	First business day of each month following the service month, subject to ACH/equivalent settl
FX Rate Locked	[Wise mid-market rate at SOW signing]

9. COMPENSATION MODE

Select one (and attach the corresponding addendum where required):

- **■ Cash Only** — No addendum required.
- **■ Cash + Success Fee** — *Attaches Success-Fee Addendum*. Trigger event: [select from whitelist — Qualified Meeting Held + Accepted / Signed Partner Agreement / Closed-Won Deal — or specify in addendum if outside whitelist, subject to legal review].
- **■ Cash + Equity** — *Attaches Hybrid Cash + Equity Addendum + FAST grant*. Cash retainer reduced by [____%]; equity grant of [____ shares / ____% / ____ basis points] vesting on [4-year monthly schedule with 1-year cliff / other].
- **■ Equity Only** — *Attaches Equity-Only Addendum + FAST grant*. No cash component. Platform activation fee may still apply.
- **■ Cash + Equity + Success Fee** — *Attaches all three addenda*.
- **■ Other Negotiated Combination** — *Attaches Custom Compensation Addendum*. Routes to deal-desk review before SOW signing.

10. REPORTING & COMMUNICATION

Field	Value
---	---
Company Primary Contact	[Name, Title, Email]
Operator Primary Contact	[Name, Email]
Synchronous Cadence	[Weekly call, Wednesdays, 30 min] OR [Bi-weekly review, 60 min]
Asynchronous Updates	[Daily Slack summary by 6pm operator-time] OR [Weekly written report by Friday]
Reporting Tool	[Slack #bridgescale-{company-slug} / Notion / Linear / Email]
Engagement Workspace	BridgeScale platform engagement workspace – milestone tracking, deliverable upload, str

Either Party may request a status review at any time. Material changes in scope, hours, or deliverables are recorded as written amendments to this SOW (see §12).

11. TERMINATION

Sprint

This SOW runs to completion. Either Party may terminate for material breach with **7 days' written notice**, with an opportunity to cure during the notice period. On termination, the Operator is paid for all Services rendered up to the termination date.

Retainer (both flavours)

Either Party may terminate this SOW on **30 days' written notice**. The Operator is paid for all Services rendered through and including the notice period. Equity components, where present, follow the vesting treatment in the Hybrid Cash + Equity or Equity-Only Addendum.

Consultation

Pre-paid in full at booking. Cancellation is governed by the BridgeScale Cancellation Policy (linked from the Contracts & Payments FAQ on the platform).

Material Breach

Either Party may terminate this SOW immediately for cause if the other: (a) materially breaches this SOW or the MSA and does not cure within 7 days of written notice; (b) becomes insolvent or files for bankruptcy; (c) engages the other Party for paid commercial work outside the BridgeScale Platform without written consent (see MSA §6).

Effects of Termination

On termination, deliverables already produced are owned by the Company per MSA §4.1, subject to full payment of amounts due. The Operator returns or destroys Company confidential information as instructed (see MSA §7). Surviving sections of the MSA continue to apply.

12. SPECIAL TERMS

[Use this section for engagement-specific provisions not covered above. Examples:]

- *Specific tools the Operator will use or be granted access to (Company CRM, Slack workspace, customer database).*
- *Tools the Operator must NOT access (e.g., HR systems, financial systems).*
- *Customer-side NDAs the Operator must execute before specific introductions.*
- *Deliverable-handling exceptions (e.g., a particular case study cannot be shared without explicit approval).*
- *Geographic limits on outreach (e.g., excluding existing Company customers).*
- *Industry-specific compliance (e.g., HIPAA / GDPR / financial-services regulations).*
- *Bonus structures or stretch-target rewards beyond the standard Compensation Mode.*

[Where Special Terms create new commercial obligations not captured above, those terms are subject to BridgeScale's deal-desk review.]

SIGNATURES

By signing below, the Company and Operator accept this Scope of Work and confirm it is governed by the referenced Master Service Agreement. BridgeScale acknowledges this SOW under MSA #[ID].

DRAFTER NOTES — REMOVE BEFORE LEGAL REVIEW

- **§5 Deliverables timeline** — the table is template-driven; each of the 10 service templates needs its own canonical Deliverables table prepared in P1.4 (ServiceTemplate seed data). Counsel does not need to review per-template; counsel reviews the SOW shell.
- **§6 Success Metrics** — placeholders are illustrative for a Pipeline Sprint. Each service template should ship with default metrics + measurement methods. Custom metrics in the Pre-SOW Commercial Summary feed into this section at SOW drafting time.
- **§8 Operator Fee placeholder** — every fee value is [USD ____] until founder + finance lock per-template price bands.
- **§8 Platform Fee 10%** — placeholder rate. Note for counsel: confirm consistency with MSA §3.2.
- **§8 EOR Fee pass-through** — note for counsel: confirm pass-through is described correctly. The number on the Company's invoice = the number on the EOR partner's invoice to BridgeScale, with no margin.
- **§8 Payout Currency** — currently lists corridors supported at launch. Counsel should review FX-locking clause.
- **§9 Compensation Mode addendum trigger** — SOW signing is conditional on the addendum being attached and signed; not a separate later signature.
- **§9 Success-Fee whitelist** — limited to three trigger events at launch (Qualified Meeting Held + Accepted / Signed Partner Agreement / Closed-Won Deal). Counsel: confirm these don't trigger commission-regulation issues in target jurisdictions.
- **§11 Termination notice periods** — Sprint 7-day cure / Retainer 30-day notice. Counsel may want jurisdiction-specific carve-outs (e.g., longer for EU corridors).
- **§11 Effects of Termination** — IP transfer language relies on MSA §4.1 (full payment trigger). Counsel: confirm trigger language is robust against partial-payment disputes.
- **Pre-SOW Commercial Summary** — this SOW assumes a Pre-SOW Commercial Summary exists for the engagement and that both Parties have confirmed it before SOW drafting. The Pre-SOW Summary is non-binding; the SOW is the first binding document.

- **MSA reference** — [MSA-####] is a system-generated identifier. Counsel: confirm the SOW can rely on the MSA being signed before the SOW is drafted.
- **Multi-engagement re-use** — same Company–Operator pair may have multiple SOWs. Each gets its own SOW number; the MSA is reused. Counsel: confirm no language in this SOW prevents that.

End of SOW placeholder v0 DRAFT.
